

Dear Students, Parents and/or Guardians,

Your child is participating in Scholastic Reading Counts!, a reading achievement program with a library of thousands of best-loved titles. This school year, our classroom will be using a point system to track each child's progress. Each selection your child reads will be worth a certain number of points, which is based on the reading level the child chooses.

The requirements for each child will be as follows:

Students in 8th grade can read no lower than a 6th grade level book.

Students in 7th grade can read no lower than a 5th grade level book.

If this is extremely difficult for your child, please have your child speak with me personally and we can adjust the grade level book requirements for your child.

+	✓	N
Student has successfully reached 20 points in the Reading Counts Program.	Student obtained 19-11 points in the Reading Counts Program.	Student obtained 10 or less points in the Reading Counts Program.

If you have any questions or concerns, please feel free to contact me.

God Bless,

Mrs. Shafer
